Bless Bless Productions DVDs are formatted for NTSC. For customers in areas that use PAL this is generally not an issue, as most DVD players sold in countries using the PAL standard are able to read both PAL and NTSC-formatted DVDs and DVD-Rs*. However, the majority of players sold in areas using the NTSC standard will not play PAL-formatted media.

Customers who require PAL-formatted DVDs should contact us via phone or email with your requests.

*Viewers in PAL regions may encounter a problem when attempting to watch an NTSC-formatted DVD/DVD-R via a PAL-only television set.

Please email us to confirm: The availability of the program(s) you are interested in- the format you require- the shipping method requested. We will reply with a quotation or with contact information for the producer.
